

DFI Remote BIOS Configuration Service

DFI provides VIP customer with Remote BIOS Configuration Service (RBCS). With RBCS, our VIP is able to modify their BIOS data easily. If you want to access to this service but without VIP account, you can download [Account Opening Form](#) and submit to your DFI responsible sales.

Download client kit below & Access to RBCS

Attach your **Disk C** as working disk

**English
Version**

**Traditional
Chinese
Version**

Attach your **Disk D** as working disk

**English
Version**

**Traditional
Chinese
Version**

If you need more information about using this service, please refer to [RBCS User Guide](#).

The system will be improved constantly. We would be honored to receive your precious suggestion. Please kindly send your thought to our [FAE Contact](#). We might incorporate your suggestion into development plan.
