The Social Responsibility and Environment, Safety/ Health Policy for DFI Corporation

DFI Corporation has not only fulfilled its commitment by providing better products and services, but also devoted itself to the practice and promotion of social responsibility, energy management, environment, safety and health management, and Authorized Economic Operator (AEO) safety and security management. The goal is to contribute to the society, and to improve labor rights, safety and security performance, and quality of life. In order to fulfill our commitment of providing necessary resources and information to achieve organizational goals and objectives, from now on, DFI Corporation integrates social responsibility (SR), energy, environment, safety and health (ESH) management, and AEO safety and security management with business philosophy to efficiently execute the SR & ESH Policy.

DFI Corporation executes the SR & ESH Policy through upholding the following principles:

1. Operate with integrity and stringently abide by the ethical code of conduct.
2. Comply with regulations and customer requirements, and social responsibility and the environment, safety and health standards.
3. Continuously examine and improve the performances of pollution prevention, waste minimization, energy and water conservation, safety and health realization, and prevent risks in advance.
4. Respect consultation and participation of workers to protect labor rights, and continuously improve business management.
5. Enhance product eco-design to reduce product life cycle impacts.
6. Provide trainings for suppliers to meet designated standards
7. Lead group companies in achieving corporate sustainability.
